13 UNITED STATES OF AMERICA, )  
14 Plaintiff, ) CASE NO. 3:18-CR-533-RS  
15 v. ) GOVERNMENT’S SENTENCING MEMO  
16 LORIK PAPYAN, )  
17 Defendant. )

18  
19 **I. OFFENSE CONDUCT**

20 Between 2016 and 2019, Lorik Papyan was a member of a conspiracy that obtained prescription  
21 drugs bought on the street or through other illicit sources and then, with devious sophistication,  
22 reintroduced those drugs into the lawful pharmaceutical supply chain. The focus of this unlicensed  
23 wholesale distribution operation was HIV antiretroviral treatments, given their immensely lucrative  
24 triage possibilities. They are cheap to buy and highly profitable to sell. Papyan had numerous roles in  
25 the conspiracy, which spanned three different front companies—“Covidien Sales and Distribution,”  
26 “Mainspring Distribution,” and “RSL Distribution.”

27 *First*, Mr. Papyan helped obtain prescription drugs from illegitimate sources. The government  
28 has little visibility into how this was accomplished but generally in such schemes patients are

1 approached and offered pennies on the dollar for their medications. More on this below.

*Second*, Papyan helped manufacture a fake electronic trail to conceal the crime. He worked with co-conspirator Edvin Ovasapyan to create fraudulent transactions histories or “pedigrees,” i.e., paperwork required by federal law to show to sellers the provenance of the drugs. Papyan and co-conspirators did so by mimicking the names of a prescription drug wholesaler, in case a customer took time to look up the company. Ovasapyan and Papyan found one such entity by scrolling through the California Board of Pharmacy website to find a licensed but inactive seller. They then used a variation of that supplier’s name in websites and email domains that Papyan established. PSR ¶ 12-13. (A picture of Papyan’s spoofing website, full of grammar errors, is at left.) Papyan and confederates were diligent

in maintaining this illusion; they monitored the status of the licensed supplier, knowing that if that license lapsed the legitimacy of their drug supply might be questioned. Papyan further deluded prospective customers by assisting in creating fake paper record of correspondence between fictitious suppliers to enhance the veneer of legitimacy for customers. Papyan, in one forged correspondence, sent emails under the name “Benjamin Wellington” to Mainspring. Papyan and others opened bank accounts using names misleadingly similar to a licensed supplier and routed the proceeds through those accounts in order, again, to mimic the appearance of a legitimate supply chain. *Id.*

1 *Third*, Papyan helped  
 2 prepare drugs for reintroduction  
 3 into the supply chain. He  
 4 worked to “clean” the black-  
 5 market drugs, by hand, removing  
 6 existing labeling using lighter  
 7 fluid and then relabeling and  
 8 repackaging the pill bottles for  
 9 shipment to pharmacies. (At  
 10 right is a picture taken by law  
 11 enforcement during a search of  
 12 one of Papyan’s cleaning and  
 13 reshipping operations.) He assisted in counting the pills, before repackaging them, often working late  
 14 into the night to do so. At times this was done in the law offices of co-defendant Stephen Silverman; at  
 15 other times, at a stash location secured for the purpose.

16 *Fourth*, Papyan laundered the illicit profits by purporting to provide IT services to the conspiracy

as his company “Loart Inc.”  
 He received illegal profits  
 under the guise of  
 remuneration for these  
 consulting services, such as  
 in the \$20,000 check from  
 Covidien at left.

17  
 18  
 19  
 20  
 21  
 22  
 23  
 24 This immense fraud—  
 25 on patients, on mom-and-pop pharmacies, on the Food and Drug Administration—was successful. The  
 26 conspiracy grossed between \$50 and 70 million. Papyan used his cut to buy (among other things) a \$2  
 27 million apartment on Wilshire Boulevard in Los Angeles.  
 28

## II. PROCEDURAL HISTORY

Mr. Papyan pleaded guilty on August 10, 2021 to one count of Unlicensed Wholesale Distribution of Prescription Drugs in violation of 21 U.S.C. §§ 331(t), 333(b)(1)(D) and 353(e)(1). Doc. 190, 191. Papyan's sentencing was delayed largely because of the anticipated trial of Stephen Silverman, which had been continued, on defense motion, three times. Doc. 245, 247.

## III. SENTENCING GUIDELINES CALCULATIONS

The government agrees with Probation that Papyan has a Base Offense Level of 6 under U.S.S.G. §2B1.1(a)(1), a 16-level enhancement for a loss amount between \$1,500,000-\$3,500,000 under U.S.S.G. §2B1.1(b)(1)(I), and a three-level reduction for acceptance of responsibility under U.S.S.G. §3E1.1. The Total Offense Level is 19, with a Criminal History Category of I, so the range of 30-37 months.

## IV. GOVERNMENT'S SENTENCING RECOMMENDATION

The government recommends a sentence of 30 months, at the low end of the Guidelines range.

Papyan engaged in a large-scale, profitable, sophisticated, multi-year fraud. This causes three distinct public harms. *First*, Congress's efforts to ensure a safe and reliable prescription drug supply are compromised. Diverted drugs come from sources unknown to regulators, users, or distributors. The requirements that drugs be unadulterated, stored properly, and traceable are rendered unenforceable. Tampering or loss of integrity, in particular, is a danger. The potential profit incentivizes all sorts of unwholesome practices. For instance, expired prescription drugs can be relabeled and made to appear current. Or HIV drugs with a list price of \$1,000 a bottle can be refilled with over-the-counter allergy medicine. Companies like the ones Papyan helped create provide a clearinghouse for this market.

*Second*, Papyan's fraud created three set of victims. First are unsuspecting patients who consume the drugs. These users trust that the medications they receive are legitimate, safe, and subject to oversight. Papyan exploited that trust for profit. Second are the patients who were prevailed upon to part with their drugs. About 1.2 million Americans have HIV.<sup>1</sup> Pharmaceutical advances let them live long and relatively healthy lives by reducing the viral load often to the point of undetectability. This

---

<sup>1</sup> <https://www.hiv.gov/hiv-basics/overview/data-and-trends/statistics>

1 treats HIV (by keeping the immune system unimpaired) and prevents further transmission (by making  
 2 the virus quantity too miniscule to infect). But many of those infected are disadvantaged by  
 3 homelessness or poverty. So fraudsters have learned that these lucrative medications can be pried from  
 4 their hands for cash.<sup>2</sup> When this happens, those individuals go untreated. That in turn means that their  
 5 viral loads shoot up, making them more likely both to decline under the virus and to pass on the disease  
 6 through sex or syringe-sharing. These individuals—exposed to infection, or infected, by a newly  
 7 infectious person who sold off their drugs—constitute a third category of victims.

8 *Third*, pharmaceutical diversions costs the government and ultimately taxpayers huge sums. The  
 9 same bottle of pills can be billed to government-funded programs more than once—at the point of sale,  
 10 and again, when that bottle is purchased for a second time, at another point of sale. This is a general  
 11 result of such schemes; insurance or program fraud is not alleged against Mr. Papyan personally.

12 \* \* \*

13 The government recommends a low-end sentence in part because although Papyan elected not to  
 14 cooperate, Papyan did agree, as the Silverman trial approached, to sit for a proffer that detailed  
 15 Silverman’s knowledge of the scheme and specific roles in it. Papyan also provide a handful of  
 16 documents to the government. Papyan also deserves credit for having forfeited, pre-sentencing, his  
 17 Wilshire Boulevard apartment (valued at \$1,790,031.13). Doc. 190 ¶ 11, 212.

18 \* \* \*

19 *Co-defendants*: Co-defendant Hakob Kojoyan was sentenced by this Court to 33 months for his  
 20 role in this scheme, along with forfeiture of a home. Doc. 162, 158. The government had recommended  
 21 a 33-month sentence, under the same Guidelines range as Papyan. Doc. 157. Co-defendant Stephen  
 22 Silverman received two years of home confinement, a \$20,000 fine, and a \$1,497,897.34 forfeiture  
 23 judgment. Doc. 286, 290. Co-defendant Edvin Ovasapyan will be sentenced in September 2024.

24  
 25  
 26  
 27 <sup>2</sup> A CNBC video report from December 2023 illustrates an HIV drug fraud similar to the one  
 28 here. It focuses on Lazaro Hernandez, sentenced in the Southern District of Florida to 180 months (No.  
 22-CR-60129, S.D. Fl.), *available at* <https://m.youtube.com/watch?si=W8dkLJZvDJWiJePi&v=-VbiHC4gsTE&feature=youtu.be>. It touches on the acquisition of HIV drugs from the street; the  
 tremendous profits available; and the lighter-fluid cleaning technique that Papyan also employed.

1 As to the amount: Gilead submitted detailed record-based materials that demonstrate significant  
 2 lost sales as a result of defendant and his co-conspirators' conduct. Specifically, Gilead, through civil  
 3 litigation, discovered that Mainspring sold 16,965 bottles of nine Gilead-branded HIV medications to  
 4 Scripts, one of Mainspring's principal customers. Gilead's restitution claim is based only on these  
 5 records. *See* Ex. A (Victim Impact Statement of Gilead Sciences). The medications sold to Scripts were  
 6 prescription-only, non-substitutable, and sold by Gilead nationally at a uniform cost. *Id.* at 6-7. So  
 7 Scripts, but for Mainspring's sales to it, would have had no choice but to buy the same medications from  
 8 a legitimate wholesaler.

9 Gilead calculated its lost sales first by multiplying the number of counterfeit bottles sold for  
 10 these drugs, at the uniform wholesale acquisition cost (or WAC) at the time of sale.<sup>4</sup> *See* Ex. B  
 11 (Declaration of George Soussou and Exhibit 1 [Mainspring Sales to Gilead HIV Medications]).<sup>5</sup> Then,  
 12 after discussion the government, Gilead reduced its restitution claim by the factoring in the  
 13 manufacturing costs it never had to expend. That is, although Gilead was deprived of sales of 16,965  
 14 bottles by the Mainspring fraud, Gilead nonetheless did not have to manufacture, package, and ship  
 15 those bottles. So Gilead ascertained, using its own 10-K submissions, its true profit margin (total sales  
 16 minus the cost of goods to Gilead). By this method is determined that its actual lost profit from diverted  
 17 sales (again for Mainspring-Scripts sales in 2017-18) was \$31,843,643. *See* Ex. C [Gilead-prepared  
 18 PowerPoint summary explanation of its restitution calculation]. This is the restitution claim.

## 19 VI. CONCLUSION

20 The government respectfully recommends a sentence of 30 months, supervised release of 3  
 21 years, a fine of \$10,000, and a restitution award of \$31,843,643.

23 DATED: June 11, 2024

**VICTIM IMPACT STATEMENT OF GILEAD SCIENCES, INC.,  
GILEAD SCIENCES IRELAND UC, AND GILEAD SCIENCES, LLC**

Gilead Sciences, Inc., Gilead Sciences Ireland UC, and Gilead Sciences, LLC (together, “Gilead”) provide this Victim Impact Statement regarding Defendants Edvin Ovasapyan, Lorik Papyan, Hakob Kojoyan, and Stephen Silverman’s (the “Mainspring Defendants”) manufacture, sale, marketing, and distribution of counterfeit Gilead-branded medications.<sup>1</sup> Given their joint roles in the counterfeiting conspiracy, Gilead is submitting a single Victim Impact Statement for all of the Mainspring Defendants, and seeks restitution on a joint-and-several liability basis against each of them.

Gilead manufactures several life-saving treatments for both patients living with HIV and patients at high risk of exposure to HIV, known as pre-exposure prophylactics (“PrEP”). The Mainspring Defendants’ actions in manufacturing and trafficking these counterfeit medications

<sup>1</sup> Gilead understands that Silverman pled guilty to “conspiracy to engage in unlawful wholesale distribution of drugs” under 18 U.S.C. § 317. Dkt. No. 267. Gilead understands that Papyan pled guilty to “conspiracy to commit wire fraud” under 18 U.S.C. § 1349. Dkt. No. 191. Gilead further understands that Ovasapyan has pled guilty to one or more counts of the First Superseding Indictment. Gilead further understands that Kojoyan pled guilty to “unlicensed wholesale distribution of prescription drugs.” Dkt. No. 162.

put patients' health and safety at risk, preventing them from receiving appropriate and prescribed care for a life-threatening disease and increasing the risk of the spread of HIV in the patients' communities.

The vast majority of Gilead's knowledge of the Mainspring Defendants and their illicit counterfeiting of Gilead-branded medication stems from Gilead's investigation and parallel civil proceedings that Gilead brought to halt a large-scale counterfeiting scheme and protect patients. *Gilead Sciences, Inc. v. Safe Chain Solutions, LLC*. Case No. 21-cv-4106 (E.D.N.Y.). Patient safety is always paramount for Gilead, and Gilead has been grateful for the opportunity to cooperate with the Government throughout its investigation into this dangerous counterfeiting operation.

#### **I. Gilead's Role in Treating and Preventing HIV**

HIV is a virus that attacks the immune system. Specifically, HIV attacks CD4 T-cells, which assist in fighting infections.<sup>2</sup> With reduced levels of CD4 T-cells, individuals are more susceptible to any number of infections and life-threatening illnesses. Generally speaking, Gilead-branded HIV medications like BIKTARVY<sup>®</sup> help fight HIV infection in two substantial ways: (1) by lowering the virus's viral load in the patient's blood and (2) by raising the patient's CD4 T-cell count.<sup>3</sup> Gilead's treatments for HIV reduce viral loads to undetectable levels, which prevent the transmission of HIV, while raising CD4 T-cell counts strengthens the immune system.<sup>4</sup>

Gilead is proud to be at the forefront of efforts to reduce illness and death for individuals living with HIV or at-risk of contracting HIV. Over one million people in the United States

<sup>2</sup> <https://www.biktarvy.com/what-is-hiv>.

<sup>3</sup> *Id.*

<sup>4</sup> *Id.*

today live with HIV. According to the Centers for Disease Control and Prevention (“CDC”), HIV is among the ten leading causes of death among certain populations in the United States. However, as the CDC notes, “early diagnosis, prompt treatment, and maintaining access to high-quality care and treatment have been successful in reducing HIV-related deaths.”<sup>5</sup> In 1990, the death rate in the United States with HIV as the cause of death was 10.2 per 100,000 population. By 2019, the death rate in the United States with HIV as the cause of death dropped nearly 90%, to 1.4 per 100,000 population.<sup>6</sup>

Gilead has been a leader in the development of antiretroviral therapeutics for treating HIV for the past 35 years. Gilead developed the first single-tablet regimen for treating HIV, the first antiretroviral for PrEP, and the first long-acting injectable HIV treatment medication administered twice-yearly.<sup>7</sup> Gilead’s commercially available medications to treat HIV and/or prevent its spread include: BIKTARVY<sup>®</sup>, DESCOVY<sup>®</sup>, GENVOYA<sup>®</sup>, TRUVADA<sup>®</sup>, ATRIPLA<sup>®</sup>, STRIBILD<sup>®</sup>, ODEFSEY<sup>®</sup>, COMPLERA<sup>®</sup>, EMTRIVA<sup>®</sup>, AND VIREAD<sup>®</sup>.

Gilead continues to invest tremendous resources into creating the next generation of therapeutic options for treating HIV, spending more than \$5 billion annually on research and development.<sup>8</sup> Curing HIV remains Gilead’s ultimate aspiration.<sup>9</sup> Gilead’s work to develop a cure for HIV is one part of the company’s larger role in the global efforts to end the HIV epidemic and part of its focus on person-centric innovation.<sup>10</sup>

## II. The Counterfeits Caused Immense Harm to Patients and Risk to Communities

Many of the counterfeits trafficked by the Mainspring Defendants were manufactured beginning with empty bottles of Gilead-branded HIV medication, which had once contained authentic HIV medication. The Mainspring Defendants' counterfeiting operation then refilled these empty bottles with foreign pills or pill-like objects, ranging from over-the-counter analgesics to prescription anti-psychotic medicine to "candy." Dkt. No. 1 at ¶¶ 2, 21; *see generally* Dkt. No. 51 at ¶ 15. The bottles were then resealed with a counterfeit replica of the foil seal appearing on new, authentic Gilead-branded bottles and re-labeled. Dkt. No. 1 at ¶ 21. To the patients who unwittingly received these inauthentic and incorrect medications from their pharmacies, the counterfeits looked just like a sealed, authentic bottle of Gilead-branded HIV medication. These patients had no idea that the medicine inside those authentic-seeming bottles was not, in fact, the HIV medication they had been prescribed.

The Mainspring Defendants' counterfeiting operation purchased the bottles of Gilead-branded medication that they used to manufacture the counterfeits from patients on the street. The Mainspring Defendants targeted especially vulnerable populations in these illegal street buys, focusing on HIV patients who are experiencing homelessness and/or suffering from drug addiction. These street-purchased bottles were then re-packaged, including by removing the patient labelling that was applied to the bottle when it was originally dispensed. The re-packaged counterfeit bottles were then combined with fraudulent pedigrees and counterfeit copies of Gilead's patient instructions, and stored in unknown and potentially unsafe conditions. These counterfeits were then sold as "new" and authentic bottles to non-Gilead-authorized distributors, where they made their way into U.S. pharmacies and into the hands of unsuspecting patients.

It is vital that patients prescribed HIV medication take the correct, appropriate, and proper-quality medication at the correct dosage consistently. If a patient does not follow the prescription instructions, misses doses, or stops treatment, his or her HIV viral load can increase, which can lead to serious health consequences for the patient, and can also put the patient's sexual partners at risk of infection.<sup>11</sup> Interruptions in treatment can also cause patients to develop drug resistance, causing certain HIV treatments and medications to lose effectiveness.<sup>12</sup> Similarly, PrEP treatment – prescribed for patients at a higher risk of contracting HIV – requires that patients take their prescribed dosage of PrEP medication regularly, and missed doses can significantly increase the individual's risk of contracting HIV.

The human cost of the Mainspring Defendants' counterfeiting operation is appalling. Every counterfeit Gilead-branded HIV medication that the Mainspring Defendants sold represents a patient who did not take his or her appropriately-sourced, quality-controlled, and correctly prescribed HIV medication, with potentially serious consequences for that patient and for the community at large.

### **III. Gilead is Entitled to Restitution**

Gilead's efforts to stop the counterfeiting of its HIV medications have always been first and foremost to protect patient health and safety. But it is undeniable that the Mainspring Defendants' counterfeiting operation has caused significant economic loss to Gilead. Pursuant to the Mandatory Victims Restitution Act ("MVRA"), 18 U.S.C. § 3663A *et seq.*, and the Victim and Witness Protection Act ("VWPA"), 18 U.S.C. § 3663 *et seq.*, Gilead is entitled to restitution for its lost sales of Gilead-branded HIV medication. Because, as set forth below, the Mainspring

---

<sup>11</sup> <https://www.biktarvy.com/what-is-hiv/about-hiv-treatment>.

<sup>12</sup> *Id.*

Defendants' counterfeiting of Gilead-branded drugs has caused Gilead to lose sales of its authentic medications, Gilead is a victim within the meanings of the MVRA and VWPA, 18 U.S.C. §§ 3663(a)(2), 3663A(a)(2), and is entitled to restitution for those lost sales. *See, e.g., United States v. Beydown*, 469 F.3d 102, 108 (5th Cir. 2006); *United States v. Brown*, 665 F.3d 1239 (11th Cir. 2011) ("This Court repeatedly has rejected attempts to narrow the scope of "victim" under the statute.").

Thus, for example, the Second Circuit affirmed an award of restitution to pharmaceutical manufacturers against criminal defendants convicted of, among other things, fraudulently distributing counterfeit and misbranded prescription drugs, including prescription drugs without valid pedigrees. *U.S. v. Milstein*, 481 F.3d 132, 133-134 (2d Cir. 2007). The Second Circuit affirmed the district court's multi-million dollar restitution awards, which "reflected the sales that these two companies would have made if [defendant] had actually purchased the products from them for distribution in the U.S. market," holding that it was appropriate to order "restitution for lost profits under section 3663(b)(1)." *Id.* at 135-136. Likewise, Gilead is entitled to restitution for the lost sales caused by the Mainspring Defendants' criminal activity.<sup>13</sup>

#### **IV. Gilead's Economic Losses**

The economic analysis for establishing Gilead's lost sales is straightforward. Gilead sells its HIV medications only to Gilead-authorized distributors. Gilead sells each of those medications at a single price: the Wholesale Acquisition Cost ("WAC") price, which is set annually. The WAC price does not change from distributor to distributor, so Gilead earns revenue equal to the WAC price for every bottle sold.

---

<sup>13</sup> Indeed, Ovasapyan has already admitted that he used \$993,545 of "criminal proceeds that he personally obtained directly and indirectly from the commission of the offenses of conviction" to purchase real estate in California, and that sum "is in the interest of victims entitled to restitution." Dkt. No. 166 at 3.

Gilead is the only manufacturer who makes Gilead-branded HIV medications, and Gilead owns the patents that cover (or covered during the relevant patent period) those medications. Those medications are available by prescription only. Every patient who was dispensed counterfeit Gilead-branded HIV medication had been specifically prescribed authentic Gilead medication by his or her doctor. And every patient who received such a prescription needed and wanted the genuine, life-saving medication that he or she was prescribed, not a counterfeit. In short, if that patient had not received a counterfeit, he or she would have received authentic medication manufactured by Gilead – which is the only medication that could lawfully fill the patient’s prescription. Thus, every counterfeit sold by the Mainspring Defendants displaced the sale of an authentic bottle of Gilead-branded HIV medication, which Gilead would have sold at the WAC price. Gilead’s economic loss can therefore be calculated by multiplying the number of counterfeit medications by the applicable WAC price for that medication at the time of sale.

Given the black-market nature of the counterfeiting, Gilead has only limited information regarding the counterfeits at issue. Gilead is presently aware of **at minimum 16,965 bottles** of counterfeit Gilead-branded HIV medication that the Mainspring Defendants sold to Steven Diamantstein and his company Scripts Wholesale Inc. (“Scripts”), through Diamantstein’s father, Raoul Diamantstein and his entity, Lieb Pharmacy, Inc (“Lieb Pharmacy”) (collectively, the “Scripts Defendants”). *See, e.g. Gilead Sciences, Inc. v. Safe Chain Solutions, LLC*. Case No. 21-cv-4106, Dkt. No. 1056 at ¶¶ 356, 369-372 (E.D.N.Y. May 3, 2023). Specifically, Mainspring sold the counterfeits to Lieb Pharmacy, and those counterfeits were then immediately transferred from Lieb Pharmacy to Scripts, which is located upstairs from Lieb Pharmacy in a building owned by the Diamantstein family. *See id.* at ¶¶ 369-372. Gilead has confirmed that *every one* of those 16,965 counterfeits that the Mainspring Defendants sold to the

Scripts Defendants was accompanied by a counterfeit pedigree that mimicked an authentic Gilead pedigree and purported to trace the distribution of the medications back to Gilead, but listed fraudulent sales transactions that never occurred. *See, e.g. Gilead Sciences, Inc. v. Safe Chain Solutions, LLC*. Case No. 21-cv-4106, Dkt. No. 459 at ¶¶ 7, 17 (E.D.N.Y. Feb. 25, 2022).

Scripts' owner, Steven Diamantstein, has already been indicted for his role in the sale of over \$150 million of counterfeit Gilead-branded medication. *See U.S. v. Diamantstein*, Case No. 3:23-cr-511-MAS (D.N.J.). In Gilead's parallel civil litigation, Gilead has obtained records regarding the sale of counterfeit Gilead-branded medication from the Mainspring Defendants to Lieb Pharmacy to Scripts Wholesale. The relevant portions of those records are attached as Exhibit 1 to the accompanying Declaration of George S. Soussou. The tables below summarize the total number of counterfeit Gilead-branded HIV medication sold by the Mainspring Defendants to Lieb Pharmacy and Scripts for each year, multiplied by the applicable WAC price, to calculate Gilead's actual losses from the Mainspring Defendants' counterfeit sales.

Thus, in total, Gilead seeks restitution for its losses from the **16,965 bottles** of counterfeits sold by the Mainspring Defendants in the amount of **\$39,853,155.55**.

This calculation undercounts Gilead's losses by a significant amount. Due to the black-market nature of the Mainspring Defendants' counterfeiting, Gilead does not know the true number of counterfeits the Mainspring Defendants sold. Gilead understands that the Mainspring Defendants trafficked counterfeit Gilead-branded HIV medication through a number of channels, but Gilead's evidence concerning specific sales of the counterfeits is limited to the Scripts Defendants, from whom Gilead obtained discovery in Gilead's ongoing civil lawsuit. The figures presented above therefore significantly underrepresent the financial loss caused by the Mainspring Defendants' counterfeiting. The requested \$39,853,155.55 in restitution thus represents a very conservative estimate of Gilead's direct losses from the Mainspring Defendants' counterfeiting.

Gilead uses its revenue from the sale of its HIV medications to re-invest in research and development to further innovate and create additional life-saving medications for patients. Obtaining restitution here will further that vital mission. Gilead thanks the Court for its attention

to this matter and for helping stop the circulation of counterfeit Gilead-branded HIV medication to patients.

**DECLARATION OF GEORGE S. SOUSSOU**

GEORGE S. SOUSSOU, pursuant to 28 U.S.C. § 1746, hereby declares as follows:

1. I am an associate at the law firm Patterson Belknap Webb & Tyler LLP, attorneys for Gilead Sciences, Inc., Gilead Sciences Ireland UC, and Gilead Sciences, LLC (together, “Gilead”) in *Gilead Sciences, Inc. v. Safe Chain Solutions, LLC*, Case No. 21-cv-4106 (E.D.N.Y.). I am fully familiar with the facts set forth herein in support of Gilead’s Victim Impact Statement, filed in the above-captioned matter.

2. Attached hereto as Exhibit 1 is an excerpt of sales data for Scripts Wholesale Inc. (“Scripts”), showing counterfeit Gilead-branded HIV medications purchased by Scripts from Mainspring Distribution, LLC.

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

Executed on March 3, 2024.

A handwritten signature in black ink, appearing to read "George Soussou". The signature is written in a cursive style with a large initial "G" and "S".

# Exhibit C

***U.S. v. Ovasapyan et al., 18-cr-533-RS (N.D. Cal.)***

**Restitution Analysis for Losses Sustained by  
Gilead Sciences, Inc., Gilead Sciences Ireland UC,  
and Gilead Sciences LLC**

---

## BACKGROUND

---

- Mainspring Distribution sold counterfeit Gilead-branded medication sourced through patient “buy-back” schemes.
- Mainspring sold these counterfeits to Lieb Pharmacy, which in turn sold counterfeits to Scripts Wholesale (owned by son of Lieb Pharmacy’s owner).
- Counterfeit sales were accompanied by false and fraudulent “pedigrees”—*i.e.*, documents intended to track sales of medications from manufacturer throughout the distribution chain, as required by federal law.

# EXEMPLAR OF MAINSPRING FRAUDULENT PEDIGREE

- Gilead is listed on the pedigree as having an address at 36 E Industrial Road, Branford, CT 06405.
- That is not, and was not during the relevant time period, Gilead's address.

- This summary chart compiles all Gilead drugs sold by Mainspring in 2017 and 2018.
- As noted in its Victim Impact Statement, each counterfeit sale was a lost sale to Gilead, which sells **only** to authorized distributors and **only** at the Wholesale Acquisition Cost (“WAC”) price.

# COST OF GOODS SOLD\*

## Cost of Goods Sold and Product Gross Margin

The following table summarizes the period-over-period changes in our product sales, cost of goods sold and product gross margin:

(In millions, except percentages)	2018	Change	2017	Change	2016
Total product sales	\$ 21,677	(16)%	\$ 25,662	(14)%	\$ 29,953
Cost of goods sold	\$ 4,853	11 %	\$ 4,371	3 %	\$ 4,261
Product gross margin	78%		83%		86%

- Gilead's cost of goods sold in 2017 and 2018 was 17.0% and 22.4%, respectively, resulting in product gross margins of 83.0% and 77.6% for those years.
- Gilead's true cost of goods is significantly lower; these figures represent the most conservative estimate available.

# GILEAD'S LOST REVENUE AND LOST PROFITS

---

- 2017 Lost Revenue - \$16,992,526
- 2017 Lost Profit –  $\$16,992,526 * 83.0\% = \$14,103,796$
  
- 2018 Lost Revenue - \$22,860,628
- 2018 Lost Profit –  $\$22,860,628 * 77.6\% = \$17,739,847$
  
- Total Lost Profits -  $\$14,103,796 + \$17,739,847 = \mathbf{\$31,843,643}$

UNITED STATES DISTRICT COURT  
SOUTHERN DISTRICT OF FLORIDA

CASE NO. 22-60129-CR-AHS

UNITED STATES OF AMERICA

v.

LAZARO HERNANDEZ,

Defendant.

\_\_\_\_\_ /

**NOTICE OF FILING JOINT STIPULATION AS TO RESTITUTION**

COMES NOW, the parties to the above captioned action, who hereby jointly stipulate to restitution being entered in the amount of

\$113,927,681 U.S. dollars owed to Gilead Sciences, Incorporated

\$118,872,319 U.S. dollars owed to Medicare:

**Total:** \$232,800,000 U.S. dollars

In support the parties state:

1. The victim Gilead Sciences, Incorporated has submitted affidavits to the parties which demonstrate that there are at least \$113,927,681 U.S. dollars in lost sales by the victim as a result of Defendant and his co-conspirators' conduct as set forth in the Agreed Factual Basis for Guilty Plea [DE 82]. *See United States v. Sterling et al.*, 685 Fed. Appx. 880 (11th Circuit 2017) (upholding a lost sales methodology for compensating the victim); *See also United States v. Milstein*, 481 F.3d 132 (2nd Circuit 2007) (upholding lost sales methodology in pharmaceuticals case).
2. The Government has exchanged materials in discovery with the Defendant that demonstrate that a vast amount of the prescription drugs that were diverted were

reimbursed by federal health care programs upon their initial sale into the stream of commerce and also when they were re-sold into the stream of commerce after the Defendant and his co-conspirators diverted those prescription drugs as described in the Agreed Factual Basis for Guilty Plea. Therefore, the Government is entitled to at least \$118,872,319 U.S. dollars as a victim of this offense.

3. The Defendant previously agreed to this total amount in his plea agreement and the parties needed time to review the apportionment issue between the two victims.

The parties also respectfully request that the restitution hearing scheduled for September 12, 2023 be canceled.

Dated: September 11, 2023

Respectfully submitted,
