

## Prescription Drugs States Seek to Import from Canada

### Purpose

This is a living document maintained by the Partnership for Safe Medicines (PSM). Within it, you will find a collection of all the drug lists from known drug importation applications (SIPs), including previous versions superseded by subsequent filings.

In 2003, the Medicare Modernization Act included a provision to allow states to import prescription drugs from Canada as long as doing so would not endanger patients and that it would give significant savings to the American consumer. A federal rule was not finalized until 2020. [That finalized rule can be seen here](#) and it governs the requirements of any state's application to the FDA to operate a program to import medicine from Canada. As part of a Section 804 program application, a state needs to provide a list of drugs they seek to import.

### Methods

The drug lists were collected in one of three ways:

1. A state publicly published the SIP application containing the drug list
2. PSM obtained the information through a Freedom of Information Act (FOIA) request
3. The information was obtained from public evidence from ongoing litigation.

### Notes

As of January 29, 2024, legislators in Colorado, Connecticut, Florida, Maine, New Hampshire, New Mexico, Texas, and Vermont have drafted applications though not all to the same level of detail. To the best of PSM's knowledge, **Connecticut, Maine, Texas, and Vermont** have not submitted drug lists. If/when a state does, that information will be included in this document.

SIP applications included in this document are:

Colorado: [December 2022](#) and [March 2020](#)

Florida: [October 2023](#), [April 2023](#), [November 2021](#), [September 2021](#), [April 2021](#), and [November 2020](#). *At this time, PSM does not have a copy of FL's final, approved SIP from November 2023.*

New Hampshire: [April 2021](#)

New Mexico: [December 2020](#) and [October 2020](#)

This is a living document that PSM will maintain that collects all drug lists from all known importation applications, including previous versions superseded by subsequent filings

## FOIA Responsive Document

The following drugs were submitted as part of Florida's SIP application dated October 20, 2023.

Biktarvy	Descovy	Dovato	Genvoya
Juluca	Odefsey	Prezcobix	Prezista
Ravicti	Rexulti	Symtuza	Tivicay
Vraylar	Xtandi		

On the next 3 pages, we have included the original 3 page PDF (Attachment D) from Florida's October 20, 2023 application. Please note: the state of Florida indicated revisions or additions to the text of its SIP by displaying those words in red.

**Attachment D: Wholesale Importation Drug List**

Update 10/20/23

This attachment incorporates by file a document for each drug identified below. For each drug, the Agency intends to import all strengths and dosage forms listed on the cover sheet. The Agency does not intend to import any approved dosage form or strength combination not listed on the cover sheets. Each file contains:

- **A drug label cover sheet** providing each eligible prescription drug's FDA-approved counterpart, the manufacturer(s) of the finished dosage form and the active ingredient or ingredients of each eligible prescription drug that the SIP Sponsor seeks to import, the legal relationship of these entities to the SIP Sponsor, and information about the HPFB-approved product and its FDA-approved counterpart. Unless otherwise specified, information on each of the cover sheets, including proprietary/brand names, active ingredients, inactive ingredients, and dosage forms, are identical for both HPFB- and FDA-approved products and will not be listed separately. Ingredient names referring to the same chemical entity may be different between HPFB-approved monographs and FDA-approved labels. A list of such entities will be provided at the end of this document.
- **The proposed label and side-by-side comparison** of proposed label to FDA-approved drug label, including the Prescribing Information, carton and container labeling, and patient labeling (e.g., Medication Guide, Instructions for Use, patient package inserts), with all differences annotated and explained.
- **The proposed package insert.**
- **The FDA-approved package insert.**
- **The HPFB-approved package insert.**
- **Marketing Status in the United States.**

**Drug Name**

Biktarvy	Descovy	Dovato
Genvoya	Juluca	Odefsey
Prezcobix	Prezista	Ravicti
Rexulti	Symtuza	Tivicay
Vraylar	Xtandi	

**Interchangeable chemical names:**

Each row represents all listed names for the same chemical entity separated by semicolon.

- Tenofovir alafenamide fumarate; Tenofovir alafenamide hemifumarate
- Macrogol, PEG; Polyethylene glycol
- Sunset yellow FCF aluminum lake; FD&C Yellow No. 6
- Ferric oxide; Iron oxide
- HCl; Hydrochloride
- Caprylocaproyl macroglycerides, Caprylocaproyl polyoxyglycerides
- Glycerol; Glycerin

April 7, 2023 FL SIP Application to FDA

Find the entire application online at our website:  
[www.safemedicines.org](http://www.safemedicines.org)

Source: [document can be found on PSM's website](#).

The following drugs were submitted as part of Florida's SIP application dated April 7, 2023.

Biktarvy	Descovy	Dovato	Eliquis
Entresto	Eucrisa	Genoya	Juluca
Odefsey	Prezcobix	Prezista	Ravicti
Rexulti	Symtuza	Tivicay	Vraylar
Xtandi			

On the next two pages, we have included the original two-page PDF from Florida's April 7, 2023 application. Please note: the state of Florida indicated revisions or additions to the text of its SIP from previously submitted versions by displaying those words in red.

## Florida's List of Prescription Drugs to Import

The FDA rule requires the SIP to include the following information related to the prescription drugs that will be imported:

- Names and Drug Identification Numbers (DIN) of selected drugs to import.
- Information of the applicant that holds the New Drug Applications (NDA) or Abbreviated New Drug Applications (ANDA).
- Name and address of the manufacturer of the finished dosage form.
- Names and addresses of manufacturers of the prescription drugs and active ingredients.

As part of this proposal, the State is providing the list of prescription drugs it will initially attempt to import under the SIP. The final list of imported prescription drugs is subject to change and can be addressed in an amended SIP or through the pre-import request, based on the FDA's preference. **At the time of this submission, the State does not know the addresses of the manufacturers' facilities that produce the finished dosage forms or active ingredients.**

Florida has chosen a limited set of **drugs** that will yield the highest potential savings. Also, these specific medications allow Florida the best opportunity to maximize the importation program's benefits while remaining compliant with federal law. After the program has proven to be a success, the State intends to amend its SIP to expand the list of medications that will be imported.

The list of proposed drugs for this SIP is in **Table 2, Proposed Drug List**, below. Full information regarding each drug as listed in the above bullets and the proposed labels can be found in **Attachment D, Wholesale Importation Drug List**. The State will import only the strengths and dosage forms that are listed in the SIP Proposal.

<b>TABLE 2 PROPOSED DRUG LIST</b>	
<b>Brand Name (active ingredients)</b>	<b>Dose / Dosage Form</b>
Biktarvy (bictegravir-emtricitabine-tenofovir alafenamide)	50-200-25 mg tablet
Descovy (emtricitabine-tenofovir alafenamide)	200-25 mg tablet
Dovato (dolutegravir-lamivudine)	50-300 mg tablet
Eliquis (apixaban)	2.5 mg tablet 5 mg tablet
Entresto (sacubitril-valsartan)	24-26 mg tablet 49-51 mg tablet 97-103 mg tablet
Eucrisa (crisaborole)	0.02 topical ointment
Genvoya (elvitegravir-cobicistat-emtricitabine-tenofovir alafenamide)	150-150-200-10 mg tablet
Juluca (dolutegravir-rilpivirine)	50-25 mg tablet
Odefsey (emtricitabine-rilpivirine-tenofovir alafenamide)	200-25-25 mg tablet
Prezcobix (darunavir-cobicistat)	150-800 mg tablet
Prezista (darunavir)	150 mg tablet 600 mg tablet 800 mg tablet
Ravicti (glycerol phenylbutyrate)	1.1 g/mL oral liquid

Rexulti (brexpiprazole)	0.25 mg tablet 0.5 mg tablet 1 mg tablet 2 mg tablet 3 mg tablet 4 mg tablet
Symtuza (darunavir-cobicistat-emtricitabine-tenofovir alafenamide)	150-800-200-10 mg tablet
Tivicay (dolutegravir)	50 mg tablet
Vraylar (cariprazine)	1.5 mg capsule 3 mg capsule 4.5 mg capsule 6 mg capsule
Xtandi (enzalutamide)	40 mg capsule

The following drugs were submitted as part of Florida's SIP application dated November 11, 2021.

Harvoni	Epclusa	Mavyret	Zepatier
Latuda	Farxiga	Tradjenta	Januvia
Spiriva Respimat	Combivent Respimat	Wixela	Incruse Ellipta
Kaletra	Genvoya	Complera	Stribild
Emtricitabine Tenofovir DF	Odefsey	Edurant	Intelence
Triumeq	Biktarvy	Isentress	Descovy
Juluca			

On the next four pages, we have included the original four-page listing from Florida's November 11, 2021 application. Please note: the state of Florida indicated revisions or additions to the text of its SIP by displaying those words highlighted in yellow.

## Florida's List of Prescription Drugs to Import

The FDA rule requires the SIP to include the following information related to the prescription drugs that will be imported:

- Names and Drug Identification Numbers (DIN) of selected drugs to import
- Information of the applicant that holds the New Drug Applications or Abbreviated New Drug Applications
- Name and address of the manufacturer of the finished dosage form
- Names and addresses of manufacturers of the prescription drugs and active ingredients

As part of this proposal, the State is providing the list of prescription drugs it will initially attempt to import under the SIP. The final list of imported prescription drugs is subject to change and can be addressed in an amended SIP or through the pre-import request, based on the FDA's preference. The State will also update the list of prescription drugs with the manufacturer information once that is confirmed (known).

Florida has chosen a more limited set of eligible prescription drug classes for which to initiate its importation program, focusing on medications that are used to treat certain conditions (e.g., HIV/AIDS, asthma, chronic obstructive pulmonary disease, diabetes, etc.) and that will yield the highest potential savings. Also, these specific medications allow Florida the best opportunity to maximize the importation program's benefits while remaining compliant with federal law. After the program has proven to be a success, the State intends to amend its SIP to expand the list of medications that will be imported.

The list of proposed drugs for this SIP is given below. Full information regarding each drug, including the proposed labels, can be found in Attachment D.

### Hepatitis C Prescription Drugs

Drug Name	Active Ingredient	NDC	U.S. Price	NDA/ ANDA	DIN	Canadian Name	Sold in U.S.
Harvoni 90-400mg	Ledipasvir, Sofosbuvir	61958-1801-01	\$1,098.94	NDA205834	02432226	Harvoni	Yes
Epclusa 400-100mg	Sofosbuvir, Velpatavir	61958-2201-01	\$869.05	NDA208341	02456370	Epclusa	Yes
Mavyret 100-40mg	Glecaprevir, Pibrentasvir	00074-2625-80	\$153.11	NDA209394	02467550	Maviret	Yes

Edurant	Intelence	Triumeq	Juluca
Biktarvy	Isentress	Descovy	

On the next seven pages, we have included the original seven-page listing from Florida's September 15, 2021 application.

## Florida's List of Prescription Drugs to Import

The FDA rule requires the SIP to include the following information related to the prescription drugs that will be imported:

- Names and Drug Identification Numbers (DIN) of selected drugs to import
- Information of the applicant that holds the New Drug Applications or Abbreviated New Drug Applications
- Name and address of the manufacturer of the finished dosage form
- Names and addresses of manufacturers of the prescription drugs and active ingredients

As part of this proposal, the State is providing the list of prescription drugs it will initially attempt to import under the SIP. Since the State has not finalized an agreement with a foreign seller and has not secured agreements from manufacturers, the final list of imported prescription drugs is subject to change and can be addressed in an amended SIP or through the pre-import request, based on the FDA's preference. The State will also update the list of prescription drugs with the manufacturer information once that is confirmed (known).

Florida has chosen a more limited set of eligible prescription drug classes for which to initiate its importation program, focusing on medications that are used to treat certain conditions (e.g., HIV/AIDS, asthma, chronic obstructive pulmonary disease, diabetes, etc.) and that will yield the highest potential savings. Also, these specific medications allow Florida the best opportunity to maximize the importation program's benefits while remaining compliant with federal law. After the program has proven to be a success, the State intends to amend its SIP to expand the list of medications that will be imported.

The below chart outlines preliminary information necessary for these prescription drugs as it applies in both the U.S. and Canada.

### Hepatitis C Prescription Drugs

Drug Name	Active Ingredient	NDC	U.S. Price	NDA/ ANDA	DIN	Canadian Name	Sold in U.S.

April 19, 2021 FL SIP Application to FDA

Find the entire application online at our website:  
[www.safemedicines.org](http://www.safemedicines.org)

Source: [document can be found on PSM's website](#).

The following drugs were submitted as part of Florida's SIP application dated April 19, 2021.

Harvoni	Epclusa	Mavyret	Zepatier
Latuda	Zyprexa	Olanzapine	Seroquel
Quetiapine Fumarate	Clozaril	Clozapine	Abilify
Aripiprazole	Risperidone	Chlorpromazine	Fluphenazine
Metformin	Farxiga	Tradjenta	Januvia
Spiriva	Combivent Respimat	Advair Diskus	Fluticasone Propion, Salmeterol
Wikela	Atrovent HFA	Incruse Ellipta	Kaletra
Emtricitabine Tenofovir	Sustiva	Efavirenz	Genvoya
Atripla	Efavirenz, Emtricit, Tenofovir DF	Complera	Stribild
Truvada	Emtricitabine Tenofovir DF	Odefsey	Invirase
Edurant	Intelence	Triumeq	Juluca
Biktarvy	Isentress	Descovy	

On the next seven pages, we have included the original seven-page listing from Florida's April 19, 2021 application.

## Florida's List of Prescription Drugs to Import

The FDA rule requires the SIP to include the following information related to the prescription drugs that will be imported:

- Names and Drug Identification Numbers (DIN) of selected drugs to import
- Information of the applicant that holds the New Drug Applications or Abbreviated New Drug Applications
- Name and address of the manufacturer of the finished dosage form
- Names and addresses of manufacturers of the prescription drugs and active ingredients

As part of this proposal, the State is providing the list of prescription drugs it will initially attempt to import under the SIP. Since the State has not finalized an agreement with a foreign seller and has not secured agreements from manufacturers, the final list of imported prescription drugs is subject to change and can be addressed in an amended SIP or through the pre-import request, based on the FDA's preference. The State will also update the list of prescription drugs with the manufacturer information once that is confirmed (known).

Florida has chosen a more limited set of eligible prescription drug classes for which to initiate its importation program, focusing on medications that are used to treat certain conditions (e.g., HIV/AIDS, asthma, chronic obstructive pulmonary disease, diabetes, etc.) and that will yield the highest potential savings. Also, these specific medications allow Florida the best opportunity to maximize the importation program's benefits while remaining compliant with federal law. After the program has proven to be a success, the State intends to amend its SIP to expand the list of medications that will be imported.

The below chart outlines preliminary information necessary for these prescription drugs as it applies in both the U.S. and Canada.

### Hepatitis C Prescription Drugs

Drug Name	Active Ingredient	NDC	U.S. Price	NDA/ ANDA	DIN	Canadian Name	Sold in U.S.

November 23, 2020 FL SIP Application to FDA

Find the entire application online at our website:  
[www.safemedicines.org](http://www.safemedicines.org)

Source: [document can be found on PSM's website](#).

The following drugs were submitted as part of Florida's SIP application dated November 23, 2020.

Harvoni	Epclusa	Mavyret	Zepatier
Latuda	Zyprexa	Olanzapine	Seroquel
Quetiapine Fumarate	Clozaril	Clozapine	Abilify
Aripiprazole	Risperidone	Chlorpromazine	Fluphenazine
Metformin	Farxiga	Tradjenta	Januvia
Spiriva	Combivent Respimat	Advair Diskus	Fluticasone Propion, Salmeterol
Wikela	Atrovent HFA	Incruse Ellipta	Kaletra
Emtricitabine Tenofovir	Sustiva	Efavirenz	Genvoya
Atripla	Efavirenz, Emtricit, Tenofovir DF	Complera	Stribild
Truvada	Emtricitabine Tenofovir DF	Odefsey	Invirase
Edurant	Intelence	Triumeq	Juluca
Biktarvy	Isentress	Descovy	

On the next seven pages, we have included the original seven-page listing from Florida's November 23, 2020 application.

## Florida's List of Prescription Drugs to Import

The FDA rule requires the SIP to include the following information related to the prescription drugs that will be imported:

- Names and Drug Identification Numbers (DIN) of selected drugs to import
- Information of the applicant that holds the New Drug Applications or Abbreviated New Drug Applications
- Name and address of the manufacturer of the finished dosage form
- Names and addresses of manufacturers of the prescription drugs and active ingredients

As part of this proposal, the State is providing the list of prescription drugs it will initially attempt to import under the SIP. Since the State has not finalized an agreement with a foreign seller and has not secured agreements from manufacturers, the final list of imported prescription drugs is subject to change and can be addressed in an amended SIP or through the pre-import request, based on the FDA's preference. The State will also update the list of prescription drugs with the manufacturer information once that is confirmed (known).

Florida has chosen a more limited set of eligible prescription drug classes for which to initiate its importation program, focusing on medications that are used to treat certain conditions (e.g., HIV/AIDS, asthma, chronic obstructive pulmonary disease, diabetes, etc.) and that will yield the highest potential savings. Also, these specific medications allow Florida the best opportunity to maximize the importation program's benefits while remaining compliant with federal law. After the program has proven to be a success, the State intends to amend its SIP to expand the list of medications that will be imported.

The below chart outlines preliminary information necessary for these prescription drugs as it applies in both the U.S. and Canada.

### Hepatitis C Prescription Drugs

Drug Name	Active Ingredient	NDC	U.S. Price	NDA/ ANDA	DIN	Canadian Name	Sold in U.S.
Harvoni 90-400mg	Ledipasvir, Sofosbuvir	61958-1801-01	\$1,098.94	NDA205834	02432226	Harvoni	Yes

### Section 804 Importation Program

*Colorado's Drug Importation Program*

December 5, 2022

Source: Publicly available document  
December 5, 2022 CO SIP Application to FDA

Find the entire application online at our website:  
[www.safemedicines.org](http://www.safemedicines.org)

Source: [document can be found on PSM's website](#).

The following drugs were submitted as part of Colorado's SIP application dated December 5, 2022.

EpiPen Jr	epinephrine	EpiPen	Eliquis
Xarelto	Afinitor	everolimus	Afinitor Disperz
Cabometyx	Erleada	Ibrance	Sprycel
Tasigna	Votrient	Xtandi	Zytiga
Xeljanz XR	Restasis	cyclosporin	Restasis Multidose
Biktarvy	Cabenuva	Descovy	Edurant
Genvoya	Odefsey	Symtuza	Tivicay
Triumeq	Xifaxan	Baqsimi	GlucaGen Hypo Kit
Glucagon	Latuda	Copaxone	Glatopa
glatiramer	Gilenya	Revolade	Uptravi
Ofev	Advair Diskus	Fluticasone & salmeterol diskus	Wixela Inhub
Advair HFA	Combivent Respimat	Dulera	Flovent HFA
Fluticasone HFA	Pulmicort	Spiriva Handihaler	Trelegy
Ventolin	Albuterol Inhaler	Chantix	varenicline
Synthroid	Farxiga	Invokana	Janumet
Januvia	Jardiance	Victoza	Nuvaring
EluRyng	Ethinyl estradiol/etonogestrel	Estring	Kyleena
Mirena			

On the next six pages, we have included the original six-page listing from Colorado's December 5, 2022 application.

Figure 2. Final Drug List

Drug Name	Strength	Broad Category	Brand/ Generic	U.S. Price	Importation Price	Percent Savings
EpiPen Jr	0.15mg	Anaphylaxis	Brand	\$224.94	\$91.13	59%
<i>epinephrine</i>	<i>0.15mg</i>	<i>Anaphylaxis</i>	<i>Generic</i>	<i>\$124.50</i>	<i>\$91.13</i>	<i>27%</i>
EpiPen	0.3mg	Anaphylaxis	Brand	\$264.89	\$91.13	66%
<i>epinephrine</i>	<i>0.3mg</i>	<i>Anaphylaxis</i>	<i>Generic</i>	<i>\$116.97</i>	<i>\$91.13</i>	<i>22%</i>
Eliquis	2.5mg	Blood Thinner	Brand	\$5.75	\$1.80	69%
Eliquis	5mg	Blood Thinner	Brand	\$6.22	\$1.80	71%
Xarelto	2.5mg	Blood Thinner	Brand	\$7.06	\$1.60	77%
Xarelto	10mg	Blood Thinner	Brand	\$13.73	\$3.20	77%
Xarelto	15mg	Blood Thinner	Brand	\$12.58	\$3.20	75%
Xarelto	20mg	Blood Thinner	Brand	\$12.99	\$3.20	75%
Afinitor	5mg	Cancer	Brand	\$496.46	\$209.25	58%
<i>everolimus</i>	<i>5mg</i>	<i>Cancer</i>	<i>Generic</i>	<i>\$260.92</i>	<i>\$57.00</i>	<i>78%</i>
Afinitor Disperz	2mg	Cancer	Brand	\$534.05	\$238.32	55%
Afinitor Disperz	3mg	Cancer	Brand	\$487.99	\$238.32	51%
Afinitor Disperz	5mg	Cancer	Brand	\$432.91	\$238.32	45%
Cabometyx	20mg	Cancer	Brand	\$586.42	\$330.00	44%
Cabometyx	40mg	Cancer	Brand	\$736.78	\$330.00	55%

Department of Health Care Policy & Financing, 2022.

### Significant Savings

This SIP meets Final Rule requirements to demonstrate significant cost savings, providing details on uncertainties that may influence our success. Colorado has requested flexibility from the FDA in the interpretation of significant savings given the need for state-led programs to begin with narrower lists of drugs and expand over time.

March 9, 2020 CO SIP Application to FDA

Find the entire application online at our website:  
[www.safemedicines.org](http://www.safemedicines.org)

Source: documents ([draft proposal](#) and [appendices](#)) can be found on PSM's website.

The following drugs were submitted as part of Colorado's SIP application dated March 9, 2020.

Adcirca	Advair Diskus	Afinitor	Alecensa
Anoro Ellipta	Apri 28 Day	Aptiom	Atripla
Aubagio	Banzel	Breo Ellipta	Brilinta
Cayston	Climara	Combivent Respimat	Complera
Cuprimine	Dexilant	Diclegis Dr	Dificid
Dulera	Eliquis	Elmiron	Enstilar
Entresto	EpiPen	EpiPen Jr	Erivedge
Estring	Farxiga	Finacea	Firazyr
Forteo	Genvoya	Gilenya	Gleevec
Glucagon Kit	Ibrance	Imbruvica	Incruse Ellipta
Inlyta	Intelence	Invokana	Isentress
Jadenu	Jakafi	Janumet	Janumet XR
Januvia	Jardiance	Jentadueto	Keppra
Kombiglyze XR	Kuvan	Lamictal	Latuda
Lonsurk	Lumigan	Myrbetriq ER	Nexavar
Noxafil	Nuvaring	Ofev	Onglyza
Otezla	Portia 28	Premarin	Premarin Cream
Prezcobix	Prezista	Prograf	Relpax
Retin-A	Revatio	Rexulti	Sabril
Sensipar	Serevent Diskus	Spiriva Handihaler	Sprycel
Stivarge	Stribild	Sutent	Synthroid
Tagrisso	Tarceva	Tasigna	Tecfidera

Tivicay	Tracleer	Tradjenta	Triumeq
Truvada	Uloric	Uptravi	Vesicare
Victoza	Vimovo DR	Vimpat Vivelle-Dot	Wellbutrin XL
Xalkori	Xarelto	Xeljanz	Xeloda
Xifaxan	Xigduo	Xtandi	Yasmin 28
Yax 28	Zelboraf	Zomig	Zytiga

On the next five pages, we have included the original five-page listing from Colorado's March 9, 2020 application.

\*CIVHC data includes 100 percent of fully-insured and 65 percent of self-funded lives (according to CIVHC and other sources). In order to derive a cost savings estimate for the self-funded lives not included in CIVHC data, we assumed similar utilization rates to CIVHC claims but a lower cost per claim of 10% to account for the stronger negotiating power of larger self-funded employers.

\*CIVHC data includes 100 percent of fully-insured and 65 percent of self-funded lives (according to CIVHC and other sources). In order to derive a cost savings estimate for the self-funded lives not included in CIVHC data, we assumed similar utilization rates to CIVHC claims but a lower cost per claim of 10% to account for the stronger negotiating power of larger self-funded employers.

\*CIVHC data includes 100 percent of fully-insured and 65 percent of self-funded lives (according to CIVHC and other sources). In order to derive a cost savings estimate for the self-funded lives not included in CIVHC data, we assumed similar utilization rates to CIVHC claims but a lower cost per claim of 10% to account for the stronger negotiating power of larger self-funded employers.

Application for Section 804  
Importation Program

New Hampshire Department of Health and Human Services

April 21, 2021

Source: [document can be found on PSM's website](#).

The following drugs were submitted as part of New Hampshire's SIP application dated April 21, 2021.

Abilify Maintena	Advair Diskus	Aubagio	Biktarvy
Breo Ellipta	Chantix	Eliquis	Epclusa
genvoya	Gilenya	Harvoi	Ibrance
Imbruvica	Ingrezza	Jakafi	Januvia
Jardiance	Kuvan	Latuda	Lupron
Mavyret	Myrbetiq	Odefsey	Otezla
Ozempic	Procysbi	Ravicti	Sabril
Spiriva Respimat	Sprycel	Tecfidera	Tradjenta
Triumeq	Truvada	Victoza	Vosevi
Wellbutrin XL	Wixela Inhub	Xarelto	Xifaxan
Xtandi			

On the next five pages, we have included the original five-page listing from New Hampshire's April 21, 2021 application. You can find a complete copy of this application's [SIPs documents here](#).

including purchasers and payers.

At any level in the supply chain where there is no market competition, the state can establish a limit on mark-up or fees for each stage of the supply chain. The allowed mark-up will account for the routine and exceptional costs of importing and distributing product throughout the state. The mark-up limits for the non-competitive parts of the supply chain will be enforced by payers and purchasers who will know the import price and the state margin limits. In order to ensure the significant savings from importing certain prescription drugs wholesale from Canada would be passed on to consumers, New Hampshire could amend its annual rate review filing requirements for health plans doing business in the state and require health plans to document savings from importation as well as how those saving were passed on to consumers.

Options for passing savings to consumers may include:

- Lowering premiums.
- Lowering deductibles, and
- Reducing or eliminating co-pays.

In addition to the rate review process described above, the New Hampshire would establish a transparent, public price list of the imported drugs in order to ensure that mark-up along the supply chain was not exceeding the allowed amount at the expense of consumer savings.

#### Conclusion

Now more than ever, one of the biggest pressures on New Hampshire families' pocketbooks is the high cost of health care in the Granite State and prescription drugs are a driver of these health care costs. We look forward to the Administration's continued action to create a formal pathway for prescription drug importation from Canada and to its partnership with states on this important initiative.

#### Proposed Drug List

<b>Drug Name</b>	<b>Active Ingredient</b>	<b>NDC</b>	<b>US Price</b>	<b>NDA/ANDA</b>	<b>Canadian Name</b>	<b>Sold in US</b>
Abilify Maintena	Aripiprazole	59148-0019-71	\$2,179.10	NDA202971	Abilify Maintena	Yes

The following drugs were submitted as part of New Mexico's SIP application dated October 8, 2020.

Latuda	Ventolin HFA	Advair Diskus	Chantix
Descovy	Jardiance	Invokana	Farxiga
Uptravi	Tecfidera	Xifaxan	Janumet
Januvia	Ravicti	Xarelto	Tivicay
Copaxone	Imbruvica	Victoza	Tasigna
Sprycel	Zytiga	Xtandi	Ofev
Promacta	Afinitor Disperz	Gilenya	Jakafi
Xeljanz XR	Votrient	Bydureon Bcise	Restasis
Biktarvy	Cabometyx	Genvoya	Triumeq
Odefsey	Truvada	Eliquis	

On the next ten pages, we have included the original ten-page listing from New Mexico's October 8, 2020 application.

BYDUREON BCISE	EXENATIDE	02483203	ASTRAZENECA CANADA INC	1004 Middlegate Road, Suite 5000 Mississauga Ontario Canada L4W 1M4	2 MG/0.85 ML	SUSPENSION EXTENDED RELEASE	1	2 mg exenatide (as white to off-white microspheres suspended in a MCT vehicle) deliver 2 mg of exenatide extended-release in 0.85 mL vehicle. Composition: Microsphere formulation: Exenatide, poly (D,L-lactide-co-glycolide), sucrose Vehicle: Medium chain triglycerides (MCT)	BYDUREON BCISE	EXENATIDE	00310-6540-04-209210			Zinc enantate, poly(lactide-co-glycolide) and sucrose Contents of liquid (diluent): inactive Ingredients: medium chain triglycerides
RESTASIS	CYCLOSPORIN	02355655	ALLERGAN INC	500 85 Enterprise Blvd Markham Ontario Canada L6G 0B5	0.05%	EMULSION	1	0.05% w/v is available as a sterile emulsion in low density polyethylene single use vials containing 0.4 mL each. Each mL of emulsion contains cyclosporine 0.5 mg with the following non-medical ingredients: Carbomer Copolymer Type A, castor oil, glycerin, polyborate 80, and sodium hydroxide to adjust the pH.	RESTASIS	CYCLOSPORINE	00023-9163-39-050790			Each mL of RESTASIS <sup>®</sup> ophthalmic emulsion contains: Active: cyclosporine 0.05%. Inactives: glycerin; castor oil; polyborate 80; carbomer copolymer type A; purified water; and sodium hydroxide to adjust pH.
BIKTARY	EMTRICITABINE, TENOFOVIR ALAFENAMIDE BICTEGRAVIR	02478579	GILEAD SCIENCES CANADA INC	600 6711 Mississauga Road Mississauga Ontario Canada L5N 2W3	50-200-25 MG	TABLET	3	50 mg of bictegravir (equivalent to 52.5 mg of bictegravir sodium), 200 mg of emtricitabine, and 25 mg of tenofovir alafenamide (equivalent to 28.0 mg of tenofovir alafenamide hemifumarate), Microcrystalline Cellulose, Croscarmellose Sodium, Magnesium Stearate, Film-Coating: Iron Oxide Black, Iron Oxide Red, Polyethylene Glycol, Polyvinyl Alcohol, Talc, Titanium Dioxide	BIKTARY	BICTEGRAVIR SODIUM; EMTRICITABINE; TENOFOVIR ALAFENAMIDE FUMARATE	61358-2501-01-210251			50 mg of bictegravir (BIC) (equivalent to 52.5 mg of bictegravir sodium), 200 mg of emtricitabine (FTC), and 25 mg of tenofovir alafenamide (TAF) (equivalent to 28 mg of tenofovir alafenamide fumarate), microcrystalline cellulose, croscarmellose sodium, colloidal silicon dioxide, and magnesium stearate. The tablets are film-coated with a coating material containing iron oxide black, iron oxide red, polyethylene glycol, polyvinyl alcohol, talc, and titanium dioxide.
